

# UT Health TL1 Pre and Post-doctoral Translational Science Training Program

## Provides:

- **Mentored exposure** to Clinical and Translational Research methodology.
- **Experiential learning** and instructive curriculum.
- **Research funding** - stipend, tuition, project and travel funds.
- **Networking** opportunities with peers and thought leaders.

## Who is the TL1 Program for?

### The ideal candidate...

- Has a strong interest in clinical and translational research
- Has prior research experience
- Has a research proposal idea and identified mentor for the project

## What sets us apart?

The TL1 program provides **career development** and training opportunities along the **translational research continuum** for trainees from **diverse research areas**. TL1 students experience training in areas that they may not otherwise have.

## TL1 Successes

TL1 - Excellence in Translational Science Training

### Outcomes

### Diversity

## Key Dates!

RFA Release Date: **November 15, 2021**

Application Deadline: **February 1, 2022**

Appointment Term: **July 1, 2022 – June 30, 2023**

## TL1 Benefits

### Research Guidance

- Mentorship in your area of research
- Support and regular updates with program leadership
- Access to UT Health/OSP research staff

### Research Career Development

- Customized Individual Development Plan (IDP) to guide future career progress
- Support with writing a competitive fellowship grant application
- Training and support on making scientific presentations
- Additional training and career development opportunities: The Office of Research Education and Mentoring's (OREM) robust Translational Science Educational, Career Development and Degreed Certificate programs. [OREM Link](#)

### Research Experience

- A novel team-based approach to translational science
- Opportunities to present your science before peers and thought leaders

The UT Health TL1 Pre and Post-doctoral Translational Science Training Program is funded by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant numbers: **TL1TR002647** & **UL1 TR002645**.
